

**Proposal for Special Issue: Environmental Science and Pollution Research,
Springer**

4th Annual Water Efficiency Conference, WatefCon 7-9 September 2016:

Water Frontiers: Strategies for 2020 and beyond

Venue: Coventry University, Coventry, UK

Organizer: Centre for Agroecology, Water and Resilience, Coventry University; Water Efficiency Network, University of Bath, UK.

Sponsor: Neoperl

Conference Website: <http://www.watefnetwork.co.uk/conference>

Theme: The aim of the conference is to foster knowledge exchange and transfer between academia, researchers and industry practitioners. It offers an opportunity to showcase the latest, cutting edge research and developments related to strategies which are required to take the industry to 2020 and beyond across the world, including challenging environments and global change.

Submissions are invited which address the conference theme, and more specifically the individual topics covered during the conference. These include:

1. Surface Water Management
2. Customer Behaviour, Water Awareness and Engagement
3. Water, Energy, Food Nexus
4. Resilient Communities
5. Water Reuse and Harvesting Systems
6. International Water Efficiency
7. Water Sensitive Cities
8. Other suitable subjects

Conference Chair: Professor Susanne Charlesworth (University of Coventry)
Network lead: Dr Kemi Adeyeye (University of Bath);
Network administrator: Suzanne Armsden (University of Brighton).

Timetable: Submission of full papers December 31 2016

Guest Editors:

Professor Susanne Charlesworth (University of Coventry)

Dr Kemi Adeyeye (University of Bath)

Dr Abdullahi Ahmed (University of Coventry)

Dr Sarah Bell (UCL)

Aaron Burton (Waterwise)
