Water Efficiency Network

#WATEFCON 2018

Water reuse & surface water mgt committee

Scope of activities:

- Water reuse codes and standards
- Water reuse technologies, their cost and maintenance
- Information sharing and awareness
- Uptake: short, medium and long term actions to promote mainstream integration

Surface water management plays an essential part of water reuse and vice versa.

Recognised by several European countries especially Belgium.

Water reuse & surface water mgt committee

Newest developments in the UK with European context

- Recognition of rainwater harvesting essential for surface water management (e.g. London Plan, regulations in Wales, latest Sewers for Adoption update)
- Water infrastructure cost reductions by water companies
- Water market deregulated for non-domestic customers opening doors for water efficiency and water reuse
- Mayor construction project policies (Old Oak Common, Ebbsfleet, Nine Elms, Thamesmead etc.)

Water reuse & surface water mgt committee

Committee activities:

- Changes in chairmanship
- Activities aimed at Metro Mayors in the UK (Manchester, Liverpool, West of Midlands, Tees Valley, Cambridge and Peterborough, West of England)
- New seminar structure
- Mayor developments London
