Water Efficiency in Buildings Network
www.waterefficientbuildings.co.uk

Newsletter March/April 2014

Past Events

The recent Water Re-Use event held at the University of Brighton on 8th April was very well attended with over 70 delegates. We have set up a [forum page](#) on our website for members to continue the discussion/debate.

The presentations from the event can now be found [here](#).

Future Events

Our next event is a Virtual Masterclass to update on **Global Trends in Water Efficiency** taking place on 26 June. We will advise of the details of this event shortly so please [join or sign up](#) to receive updates if you have not already done so. You may also wish to follow us via Twitter [@WatefNetwork](#).

Our main and final event of the year will be the 2nd Annual [Water Efficiency Conference - WatefCon 2014](#). The conference presents a forum where international academics and industry practitioners can present or exhibit their water efficiency research, innovation and best practice. The keynote speakers will be Jacob Tompkins MD of Waterwise and Dr Ian Barker from the Environment Agency. The programme will also include a **Gala dinner** on the evening of 10th September at the famous [Royal Pavilion](#) beginning with a tour of this fascinating venue.

We are now looking to include a Water Reuse follow-up session at this event. We invite you to attend and contribute either through presentations, exhibitions, demonstrations etc. [Contact us](#) if you would like to suggest or sponsor targeted sessions or events at the conference.

Early Bird discounts are currently available giving a 20% discount on pricing. Please register at <http://www.waterefficientbuildings.co.uk/55-311> as discounted places are limited!

Lastly, we are also now planning the network program for the next year, so please contact us if you would like to suggest events or activities.
